

We give you the financial skills, knowledge and confidence to make the right decisions and get the best results.

Equity Valuation Principles and Techniques

a stand-alone course which is also part of the **Certificate Programme in Practical Finance (CPPF)**

Course Overview

This practical course, run **online over three mornings**, explains clearly the key principles and techniques of fundamental equity analysis and valuation.

The valuation techniques are illustrated and reinforced using case studies of JSE-listed companies.

A simple valuation model is supplied and demonstrated during the course.

Delegates are shown how to use relevant Excel functions correctly and with confidence.

Successful candidates will receive a certificate from Johannesburg School of Finance. They will also earn credits towards the School's **Certificate Programme in Practical Finance (CPPF)**. For more on the CPPF, see www.jhbfin.co.za.

2021 Course Dates:

- 16 -18 March
- 14 -16 September

The Course Presenter:

Peter van Ryneveld

Peter has Masters degrees in Economics and Law and is a CFA charter-holder. He did his undergraduate degree in Economics at UCT, followed by Honours and Masters (cum laude) at Stellenbosch and an

LLM at Cambridge. He spent the early part of his career in merchant banking and stock-broking, focusing mainly on equity research and sales.

For the past twenty-six years he has been designing and presenting courses in business and investment finance to investment professionals, corporate managers, retirement fund trustees and, since 2002, to CFA[®] candidates. He has presented courses to delegates from over 20 countries worldwide during that time. He is the co-author of "The Essentials of Retirement Fund Management in South Africa 1993-1994" and has appeared on TV as a presenter in the "Your Own Business" series.
